PROFESSIONAL EXPEIENCE

React Developer

Flex Business Solutions, December 2021-current

- Building stable and maintainable codebases using React, Redux, Ant-Design, Ag-Grid and Context API.
- Collaborating with designers to ensure design were efficient and technically sound.
- Created and implemented project management systems, including task assignments, deadlines, and budget tracking.
- Developed and integrated resource management systems, including equipment, materials, and personnel management.
- Designed and executed scheduling systems, including timelines, deadlines, and critical path analysis.
- Developed and implemented document management systems, including storing, sharing, and tracking all project-related documents.
- Implemented communication systems, including email, and instant messaging.
- Developed and integrated safety systems, including recording, managing, and analyzing safety incidents and hazards on construction sites.
- Developed mobile-first responsive designs, allowing for easy access from smartphones and tablets.

Front End Developer

D-Communications, February 2021-December 2021

- Successfully migrated a multi-page user experience into a modern, single-page app
- Utilized React, Redux, and Typescript to build cutting-edge applications
- Created reusable components that were easily maintainable, enabling faster development cycles and efficient code-base management
- Collaborated closely with back-end team members to implement feature updates, ensuring seamless integration and a cohesive end product
- Demonstrated strong problem-solving skills and attention to detail, delivering high-quality code on time and within budget.

SUMMARY

I am an experienced React Developer with 2+ years of experience in React JS development, proficient in JavaScript, HTML, CSS, and related front-end technologies as well as 8 years of experience in databases. I have worked extensively with Redux for state management, as well as React Hooks and Context API for efficient and scalable code. With experience in UI libraries such as Material-UI and Ant Design, I can design and implement beautiful and responsive user interfaces. With a strong attention to detail and problem-solving skills, I am a valuable addition to any team looking for an expert developer who can create robust and efficient software solutions.

TECHNICAL SKILLS

- Web Development Languages: HTML, HTML5, CSS3/SASS/Bootstrap
- Scripting Languages: JavaScript
- Frameworks: React.js, Next.js
- State Managements: Redux
- UI Libraries: Ant-Design, Material-UI
- Query Languages: T-SQL, GraphQL
- Databases: MS SQL Server, MySQL, PostgreSQL
- Version Control: GIT
- Other: Typescript

EDUCATION

Bachelor of Computer Science,
South East European University, Tetovo, Macedonia (2009-2012)

Database Administrator / T-SQL Developer

Kosovo Grameen Missione Arcobaleno Microcredit Fund,
September 2017- November 2022

- Managing data management of Banking Systems (DBMS SQL Server).
- Developing high-transactions financial software feature using SQL Server and object - oriented methods.
- Writing database layers using stored procedures in SQL Server 2012/2014.
- Creating complex query definitions that allow data to be extracted.

IT Administrator

Elkos Group sh.p.k, 2014–2017

- Proficiency in SQL, and writing queries in the Query Designer to create report Queries.
- Developed a database maintenance plans to set up core maintenance tasks to make sure that database performs well.
